PRODUCTION AND SERVICE

BECAUSE of the location of Canterbury Nurseries, the Boxwood plants possess remarkable texture and richness of color. Lying between the Chesapeake and Delaware bays and the ocean, the atmosphere of the Eastern shore always is laden with moisture, thus keeping the foliage in the best possible condition. The clay-loam soil holds moisture close to the surface, thus developing a mass of tiny rootlets, and transplanting becomes an uneventful change in the life of the plants.

The Canterbury organization is schooled to produce one thing—Boxwood—and to produce Boxwood as nearly perfect as possible. Examination will show that the smallest edging plants are as perfect individuals as are the largest specimens. Of great importance is the fact that from our enormous stock of varying sizes we make rigorous selection for all orders—rejecting every plant that does not conform to the high standard of Canterbury.

Canterbury Boxwood plants are freshly dug—never stored—and in most cases an order is shipped the day following its receipt. Specialization permits this and we are convinced that buyers appreciate this prompt and careful service.

Canterbury Boxwood is not only the best produced, but is the most economical. In proof of this we are always willing to submit samples to buyers. Many customers assert that when quality, bushiness, color, and general plant-character are a consideration, Canterbury plants are never equaled.

Pyramidal forms of *Buxus sempervirens* as grown at Canterbury Nurseries

Naturally-grown bush—note compactness of foliage

Buxus sempervirens

(BUSH BOXWOOD)

The Perfect Hedge Plant

IN COLOR this species is a rich green which holds for the whole year. Therefore, it has superior advantages as a hedge plant. *B. sempervirens* has all the good points of the old English Boxwood (*B. suffruticosa*); it will fill all places where that variety is used, unless it is where dwarf plants are required.

B. sempervirens grows freely, is long-lived, and may be sheared with impunity, but, contrasting with other hedge plants, once a year is the maximum needed. And the cost for such an aristocrat is indeed small—a mere fraction of the cost of *B. suffruticosa*. For example, a hedge of *B. sempervirens* measuring over a foot in height may be purchased at under \$1 per foot.

Inevitably, the demand has greatly raised the price of larger plants of *B. suffruticosa* to such an extent that the wise planter has been turning more and more to *B. sempervirens*.

Buxus suffruticosa

OLD ENGLISH or
DWARF BOXWOOD

THE PLANT supreme for edging gardens, walks, and other formal treatment.

For those of moderate means the small plants may be used at little cost, but when a finished job is wanted, we can supply plants up to 20 inches high.

Quality considered, Canterbury prices are far the most economical.

Nurserymen, Florists
and dealers

SELECTED PLANTS of Canterbury Boxwood will be sent on each order. An enormous stock permits us to hold to specified sizes, and our pride in the name of Canterbury is so great that an inferior plant is not permitted to leave the place. Buyers can put implicit confidence in our selection.

PLEASE NOTE that our prices are f.o.b. Easton, Maryland, WITHOUT ADDED COSTS, unless specially mentioned. We make NO charge for packing.

Except where noted as B&B, an extra charge will be made for digging with ball and burlapping. Packing is free.

OUR TERMS are 60 days net, or 2 per cent 10 days. Upon proper credit reference, open account will be made; otherwise cash must accompany the order.

TRUCK DELIVERY can be made to most points on the eastern seaboard. We shall be glad to quote on lots delivered to the planting-point. Such shipping will insure arrival of plants within 10 to 24 hours after digging in the fields.

Quotations are made and orders accepted subject to stock on hand and unsold.

All agreements and contracts are made subject to loss by the elements or other unavoidable causes. We use all possible care but cannot assume any responsibility after shipment has been delivered to carrier.

We give no warranty, expressed or implied, as to description, quality, productiveness, or any other matter of any nursery stock or plants we sell.
